Product Image

Description

NT Cutter BSC-11P, the perfect solution for small-scale scraping tasks. This stainless steel scraper blade is meticulously designed for precision and efficiency, offering a rust-resistant solution that stands the test of time.

With a single-edged blade measuring 1.00mm in thickness, the BSC-11P ensures smooth and accurate scraping performance. Its compact dimensions, with a blade length of 47.5mm and a width of 28mm, make it ideal for intricate and detailed work.

Specification

- Blade Length: 47.5mm
- Blade Width: 28mm
- Blade Thickness: 1.00mm
- Blade angle: 45 Degree
- Blade Colour: Silver

The 45-degree blade angle optimizes contact with the surface, allowing you to effortlessly remove unwanted residue, paint, stickers, and more. Its sleek silver color adds a touch of elegance to the tool, setting it apart as a premium choice for both professionals and hobbyists.

Each pack contains 2 scraper blades, ensuring you always have a spare blade at hand when needed. The BSC-11P is specifically designed as a compatible replacement blade for the SC-1P, SC-2P, and SC-5P models, guaranteeing a seamless fit.

Whether you're working on delicate projects or dealing with tight spaces, the NT Cutter BSC-11P is the reliable companion you can count on. Say goodbye to rust and embrace the longevity and precision of this small yet powerful scraper blade, and effortlessly achieve outstanding results every time.

Packaged 2 Blades
